## EXPERIENCE

### Argonium Interactive Agency

10.2021 - now

Graphic Designer

I design UI and UX for websites, applications, including advanced online configurators. Additionally, I actively participate in the application programming process, ensuring their efficient functionality and appearance. I am responsible for implementing E2E tests for applications. I also create visual identities for companies, including logos, and prepare graphics intended for printing.

### Torus Education Center

01.2018 - 09.2018

Graphic Designer

My main task was designing DTP materials, particularly posters and leaflets. I was also responsible for preparing materials for social media such as posts, as well as video materials.

## EDUCATION

### Applied Computer Science

10.2023 - now

Krakow University of Economics

Master's degree studies
