EXPERIENCE

Karnatech
07.2022 - present

Web Developer, Graphic Designer

I am responsible for implementing internet projects, including creating and maintaining websites and web applications adapted for PWA. Additionally, I am involved in creating graphic materials such as catalog designs and content for billboards.

Argonium Interactive Agency
10.2021 - present

Graphic Designer

I design UI and UX for websites, applications, including advanced online configurators. Additionally, I actively participate in the application programming process, ensuring their efficient functionality and appearance.
I am responsible for testing software. I also create visual identities for companies, including logos, and prepare graphics intended for printing.

Torus Education Center
01.2018 - 09.2018

Graphic Designer

My main task was designing DTP materials, particularly posters and leaflets. I was also responsible for preparing materials for social media such as posts, as well as video materials.
